

PAULINA HENKEL

Technical Product Strategist & Systems Designer

Mexico · Remote-ready / Open to relocation · phsho007@gmail.com · linkedin.com/in/paulina-nrv · pauhenkelsho.com

PROFILE

I design the systems between people and products — translating operational complexity into elegant, human-centered experiences. My strength is working at the intersection of product strategy, UX, systems thinking and cross-functional communication. I help teams build things that are not only functional, but coherent — from the logic layer to the user interface.

EXPERIENCE

Technical Product Strategist

2023 – Present

SiVeCa Environmental Systems

- Owned end-to-end product development of an environmental intelligence SaaS platform — from architecture and data workflows to UX and go-to-market positioning.
- Translated regulatory complexity (NOM standards) into scalable digital systems and intuitive decision-support interfaces.
- Defined product structure, information architecture and user flows for industrial and environmental clients.
- Led platform communication strategy, SEO positioning and cross-functional alignment between technical and operational teams.

Product & Operations Specialist

2023 – Present

Cisco

- Designed and coordinated operational workflows bridging field reality with digital product requirements for private and federal clients.
- Led stakeholder coordination across technical, operations and delivery teams — improving execution speed and cross-team clarity.
- Mapped system integrations and identified friction points across product and infrastructure layers.

Head of Marketing & UX Designer

2014 – 2021

Trato Hecho — Digital Real Estate Startup

- Grew from data analyst to Head of Marketing over 7 years — owned product strategy, UX direction and SEO across the full platform lifecycle.
- Ran A/B testing, user research and behavioral analysis (UXCam, Optimal Workshop, Hotjar) to drive iterative product improvements.
- Built prototypes and communication assets aligned with user needs and brand; implemented WCAG accessibility guidelines.
- Defined KPI frameworks and led quantitative/qualitative research to validate product direction.

Project Manager & UX Designer

2016 – 2018

La Ruta vcc+ — Local Discovery App

- Managed full product lifecycle (concept → development → delivery) for a regional app connecting users to wineries, craft beer and local experiences.
- Designed and launched user surveys and prototypes across Baja California to validate market fit for national expansion.
- Led cross-functional coordination between design, sales and operations from the ground up.

Event Operations Manager

2016 – 2019

Independent — Ensenada, B.C.

- Designed and executed large-scale events including Startup Weekend Ensenada (350 participants), Olympic Taekwondo Bootcamps (300+) and community programs.
 - Built end-to-end operational systems — logistics, communication, team coordination and stakeholder management — under high-pressure conditions.
-

SKILLS & TOOLS

Product & Strategy	Product Strategy · Product Operations · Systems Thinking · UX Strategy · Workflow Design · AI-assisted Workflows · Scrum / Agile
Design & UX	UX/UI Design · Information Architecture · Prototyping · Figma · Balsamiq · Overflow · Hotjar · UXCam · Optimal Workshop
Technical	HTML5 · CSS3 · JavaScript (fundamentals) · APIs · GitHub · Bootstrap · SaaS Platforms · Automation · Notion
SEO & Data	Google Analytics · Search Console · SEMrush · SurferSEO · PowerSuite · KWFinder · Diib · A/B Testing · KPIs
Communication	Cross-functional Collaboration · Stakeholder Management · Technical Translation · Spanish (Native) · English (Fluent)

EDUCATION

B.S. Digital Design Engineering

CETYS Universidad · 2011 – 2016

Front-End Development Program

She Codes · 2021

HTML · CSS · JS · APIs · GitHub · Bootstrap

SELECTED PROJECTS

- Environmental Intelligence SaaS Platform (SiVeCa)
- AI-assisted operational workflow systems
- Data visualization & decision-support interfaces
- Cross-functional product ops · Startup product strategy
